- Cut-offs unchanged
- Bus Kaprun - Enzingerboden unchanged:
www.ultratrail.at/english/infopoint/bus/

Further Note GWT 35

Due to the storm damage of the last week, the Weissee Cable Car is closed up to the middle station. The upper section of the Cable Car is in operation. Access to the middle station is possible via the hiking trail. The transport of guests to the Rudolfshütte is possible and takes place with a shuttle service. **For all other guests there is no transport possible from the ground station.**

GGUT and Weisse-Bahn regret any inconveniences. Thank you for your understanding.

Further Note GWT 35

- In the downhill from Mooserboden there is construction site traffic on public roads. The use of the roads is permitted and the construction company has been informed about the race and has instructed the drivers.
- **Please take special care when reaching the public roads and walking along the edge of the road in this area.**
- Never run directly into the tunnels on the downhill! The trails run around the tunnel and where it enters a tunnel from outside the trail is structurally separated from the road for the passing of the tunnel.

GWT 35 & KST 15

General Remarks

- Safety posts are provided at crossings of major roads. On public roads, however, the traffic regulations (StVO) must be observed without exception!
- Keep the mountains clean and do not litter.
- Do not forget to save our SOS-number: 0043 680 215 22 63
- Kindly note our general general safety information:
- <https://www.ultratrail.at/english/infopoint/safety/>

Good Luck

We wish you a great race, great impressions and come back safely to Kaprun.
